## Business Profile

---

W.S.W.C. is a business that specializes in custom window coverings, inside and outside.

I take great pride in offering the best name brand products available at competitive prices. Since this is a home based business, I am able to pass on great savings to the clients without inflated overhead costs.

I come to you with over 22 years of decorating and window covering experience. In 2005, I moved to Grand Junction after 20 years of running a successful window covering business in Arizona.
